Philips SpeechLive is a cloud dictation, transcription and speech-to-text solution which converts your speech to text. Its latest add-on feature makes creating documents with your voice quicker and easier. In the office, on the go, or working remotely, you can now record your voice and have it tuned into text instantly.

## Speech-to-text

- Dictate directly into your browser
- Dictate into any program on your desktop with the speech-to-text desktop app (such as your Customer Relationship Management System or Microsoft Outlook)
- Fair-use flat rate
- Dictate on the go on your mobile phone
